OUR STORY: 18-YEARS OF EXCELLENCE

Symphony stands as a testament to 18 years of dedication, skill, and visionary leadership.

It all began with a group of ambitious engineers, each carving their paths within the telecommunications industry and achieving notable success in their respective roles—from RF Manager to Operations Director, and then to FM Director.

Fast forward 18 years, what started as a dream among ambitious engineers has evolved into a legacy of crafting monumental construction projects.

Our story is not just about building structures; it's about engineering spaces for happiness, transforming dreams into reality, brick by brick, with an unwavering commitment to excellence.

OUR MISSION: ARCHITECTS OF DREAMS

At Symphony, we see beyond the concrete and steel.

We envision homes as sanctuaries where dreams grow and families thrive. Our mission transcends construction; it lies in transforming spaces into sanctuaries of warmth and belonging, where every corner tells a story and every space is a testament to life's beauty.

We design environments that cater to the overall well-being of our residents, recognizing the essential role of communal spaces in fostering connections and enriching lives.

With over 200 families having found not just houses within Symphony, but homes, each adds to the vibrant life of a community where every element is designed with their happiness and quality of life in mind.

OUR VISION: BEYOND **BUILDINGS**

Envisioning More Than Just Spaces: From Houses to Homes. Our vision extends beyond the here and now, into creating havens in the heart of the city—landscapes that foster vibrant communities for generations to come.

We don't just cram buildings into spaces; we craft environments that resonate with the heart's deepest yearnings for connection, peace, and vitality.

Symphony's future is one where every development is a nexus of innovation and tranquility, setting new standards for living spaces where families don't just reside but flourish.

GEOGRAPHIC INFLUENCE AND LEGACY

Symphony's influence stretches across the most prestigious locations, each project a reflection of our unparalleled craftsmanship and a suite of amenities that redefine living standards. Our footprint is a testament to our unwavering vision of excellence and innovation.

COLLABORATIONS: CRAFTING TOMORROW'S SKYLINE

In our journey towards architectural excellence, Symphony has allied with titans of the industry to sculpt the skyline of tomorrow. Partnerships with leading forces like Elsewedy Electric, the Ministry of Electricity and Renewable Energy, and telecommunications giant Etisalat shows our dedication to innovation into our projects. These strategic alliances are not merely partnerships; they represent a synergy of vision and excellence, pushing the boundaries of what's possible in infrastructure and design.

PEOPLE FIRST PHILOSOPHY

At Symphony, our people-first philosophy shapes every environment we create, recognizing that the heart of a home is always its residents.

Our projects stand as a testament to this belief, designed not just as spaces but as vibrant settings for life's journey—echoing with joy, innovation, and the rhythm of daily life. Here, each development is more than a structure; it's a nurturing ground for community, individuality, and cherished experiences.

JOIN OUR SYMPHONY:

Don't miss your chance to be part of something truly special. Looking forward to a brighter future? Reach out to us, and together, we'll engineer the home of your dreams.

Schedule a visit or learn more about our custom living experiences designed for you.

Act now—join us and experience a life where every detail is made for you, and every day feels like a beautiful symphony.

BOARD MEMBERS

MOHAMED EL-SISI

CEO

Mohamed El-Sisi began his professional career as an engineer at Etisalat Egypt. Over the span of 15 years, he steadily advanced through various positions until he became the Operation Manager . He then moved to Ericsson as the Operation Director before deciding to follow his passion and enter the real estate market. He founded his first real estate company to offer a distinctive product that meets the needs of the Egyptian market in both East and West Cairo.

BOARD MEMBERS

HESHAM ABDELKHALEK

Hesham Abdelkhalek embarked on his professional journey as an engineer, where he swiftly excelled in founding his own company. Within a remarkably short period, spanning 28 years, his company emerged as one of the top three firms in the thermal insulation sector within the oil and gas industry, as well as the contracting sector. It has collaborated with numerous governmental entities, such as the Ministry of Housing, on various construction projects.

TAMER SHEEDED

Tamer Sheeded began his professional career as an engineer at Ericsson, where he achieved success and climbed the ranks over 17 years until he became the Managed Services Director. He then decided to join Mohamed El-Sisi in founding their first real estate company to pursue their shared passion for delivering a unique and distinct real estate product.

Dr. AHMED KHALED

Ahmed launched his professional career in the real estate industry in 2006, gaining valuable experience with leading companies such as Al Kharafi, Alborouj, and E-dar. Leveraging his expertise, he went on to found several successful ventures, including Elite Property Consultancy S.A.E. and Summit for Construction & Trading S.A.E. Dr. Khaled holds a Master's degree in International Commercial Transactions from the Arab Academy for Science, Technology & Maritime Transport (AASTMT), which he earned in 2014. In 2022, he further advanced his academic credentials by obtaining a Ph.D. in Economics.

MOHAMED GHAREEB

Mohamed Ghareeb began his professional career as an engineer and, over 17 years, he moved between multinational corporates such as Nokia, Huawei, and Orange. He eventually became the RF Acceptance Manager at Huawei Iraq before joining Mohamed El-Sisi and Tamer Sheeded in their successful entrepreneurial venture.
